DETAILED ACTION

Drawings

1. The drawings were received on 11/21/2003. These drawings are approved.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/12/2005 has been entered.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: as to independent claims 1, 6, 11 and 21, the closest prior art of Powell fails to teach or fairly suggest an apparatus/method/computer program as recited in claims 1, 6, 11 and 21. In particular the key distinction between the closest prior art and the instant claimed invention is that the closest prior art of Powell does not rely upon embedding bits obtained by dividing plural bits of data, which describe information relating to the image processing performed on the original image data, in a part of the multiple bits expressing each of the pixels of the processed image data dispersed at a plurality of predetermined positions in an image represented by said processed image data, in combination with other elements of independent claims 1, 6, 11 and 21.

Accordingly, claims 1, 3-6, 8-11, 13-15, 21-28 (renumbered as 1-20) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
